| <b>Ratio</b>               | <b>1999</b> | <b>1998</b> | <b>1997</b> | <b>1999-<br/>Industry<br/>Average</b> |
|----------------------------|-------------|-------------|-------------|---------------------------------------|
| Long-term debt             | 0.45        | 0.40        | 0.35        | 0.35                                  |
| Inventory Turnover         | 62.65       | 42.42       | 32.25       | 53.25                                 |
| Depreciation/Total Assets  | 0.25        | 0.014       | 0.018       | 0.015                                 |
| Days’ sales in receivables | 113         | 98          | 94          | 130.25                                |
| Debt to Equity             | 0.75        | 0.85        | 0.90        | 0.88                                  |
| Profit Margin              | 0.082       | 0.07        | 0.06        | 0.075                                 |
| Total Asset Turnover       | 0.54        | 0.65        | 0.70        | 0.40                                  |
| Quick Ratio                | 1.028       | 1.03        | 1.029       | 1.031                                 |
| Current Ratio              | 1.33        | 1.21        | 1.15        | 1.25                                  |
| Times Interest Earned      | 0.9         | 4.375       | 4.45        | 4.65                                  |
| Equity Multiplier          | 1.75        | 1.85        | 1.90        | 1.88                                  |

In the annual report to the shareholders, the CEO of Finner Inc wrote, “1997 was a good year for the firm with respect to our ability to meet our short-term obligations. We had higher liquidity largely due to an increase in highly liquid current assets (cash, account receivables and short-term marketable securities).”

**Required**

Explain whether the CEO’s statement is correct (use only relevant information in your analysis). (10 marks)
