COURSE CODE: BCSL 315/DCR 200 CRIME SCENE MANAGEMENT

EXAM DATE: WEDNESDAY

DURATION: 3 HOURS

TIME: 5:30 PM-8:30 PM

INSTRUCTIONS

- Read the instructions and questions carefully before you write the answers.
- **Answer any TWO questions**
- *ALL PAC University's examination rules and regulations apply*

Question 1

- a) Define the term crime scene and outline any FIVE considerations a crime scene investigator should make when attending a scene of murder (6mks).
- b) Describe any SIX challenges crime scene investigators encounters while investigating outdoor crime scenes. Support your answers with applicable examples in Kenya (12mks).

Question 2

- a) With the aid of relevant examples in Kenya, describe TWO major crime scenes investigator encounters based on the evidence found on them (6mks).
- b) The Forensic Science Laboratory can assist in a law enforcement agency's request for crime scene reconstruction. Using applicable examples in Africa, describe any FOUR requirements for scene reconstructions clearly stating their roles (12mks).

Question 3

- a) While special consideration must be taken for the specifics of the scene, there are some basic steps that law enforcement and crime scene investigators must follow while processing a scene. With the aid of FIVE examples, explain (10mks)
- b) Using applicable examples in Kenya, describe FIVE methods adopted by the criminal investigator to document a crime scene (10mks).
